Subject: Microsoft Settlement

Under the provisions of the Tunney Act, I wish to provide my comments before a final decision is made on the proposed Microsoft settlement. Having reviewed numerous press reports on the settlement, and many of the official court documents available to the public, I believe the proposed settlement is unacceptable in light of the findings of fact, and does not go far enough in attempts to remedy the situation. It is too open to interpretation, which is precisely the sort of environment which Microsoft thrives in - twisting and stretching the letter of the law as much as they can to suit their purposes. I sincerely hope the Department of Justice rejects this settlement, and pushes for stricter regulations and punitive actions against Microsoft.

Thank you,
Richard McMahon
